PAE/APF/WCC

Dear Mandy

Thank you for your letter dated 19<sup>th</sup> May.

As you will appreciate we have addressed some of the issues contained in your letter over the phone but I write to reassure you that:

- a) I have not, did not and would not specifically and only address you within my sermons. I always bear in mind that there are, as there were on the Sunday in question, some 230 persons present in total.
- b) My desire was to correct one or two family situations where children are left to run riot.
- c) Where people have some knowledge I am delighted, especially when those people long to expand and deepen their knowledge of truth.

We no doubt will have some detailed conversations at some time in the future within the church about Jezebel spirits and others. No doubt this would be an interesting series of teaching and I too will be learning a lot as we journey together.

The most important thing at this time that I want to really address is the fact that as a church we need to reaffirm our understanding of the vision of the church and to make sure that everybody within the family is in agreement with that vision and moving towards it. Of course this is more important within the area churches and I do trust that we will be able to get rid of some of the hurt and pain that the church has gone through and that we together will be able to re-establish an understanding of the call of God upon the church and upon our lives within the church.

I mentioned to you my support of your family situation and if there is anything I can do to help please do so. I have had a conversation with the Police and am available to help in any way.

I am as always yours in the Love and Service of Jesus.

  
Paul
